The male faculties are more in number than female faculties in the overall representation. University is aware of this fact, recently a number of female faculties have joined various departments and this gap will be reduced in near future. The Department of Linguistics has no male faculty whereas no female staff figures in the Department of Chemistry.

In comparison to Academics, female representation is less in Administrative departments.

The proportion of graduating male and female students was almost equal in all the

4. Academic Achievements

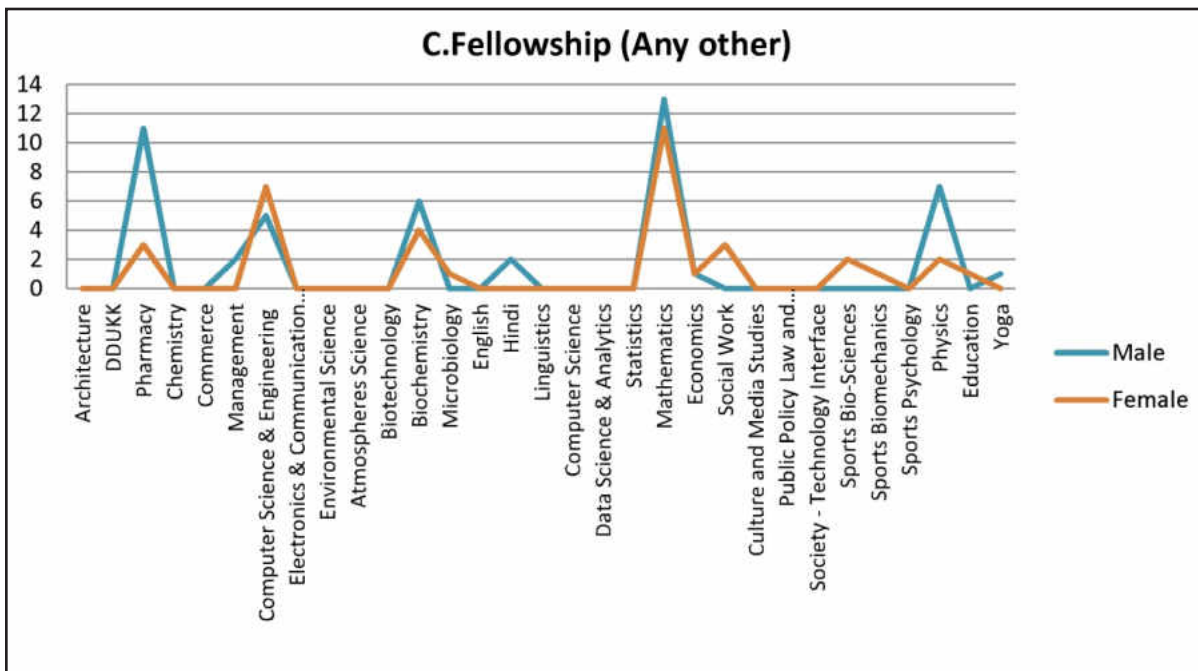

In bagging the various awards, the number of male students exceeded the females.

More female students were awarded Gold medals this year:

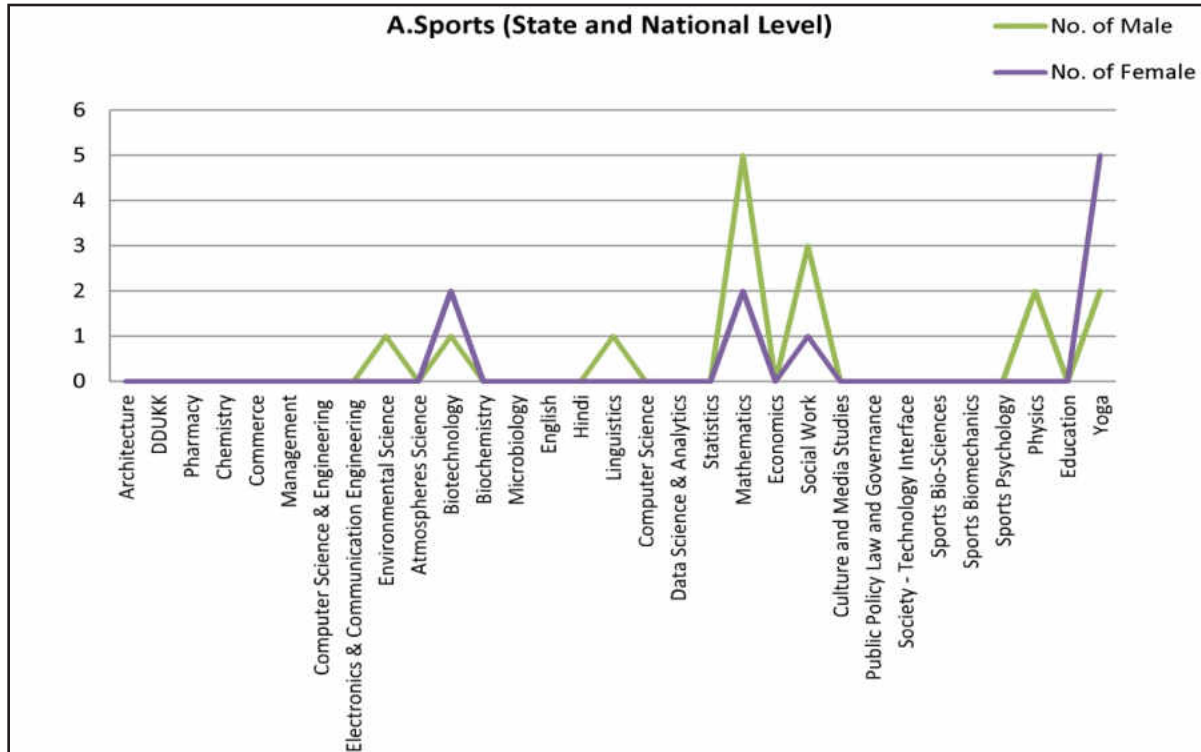

The performance of both male and female students in the departments of Mathematics and Statistics was commendable in drawing fellowships. The same could be seen in the School of Life Sciences as well.

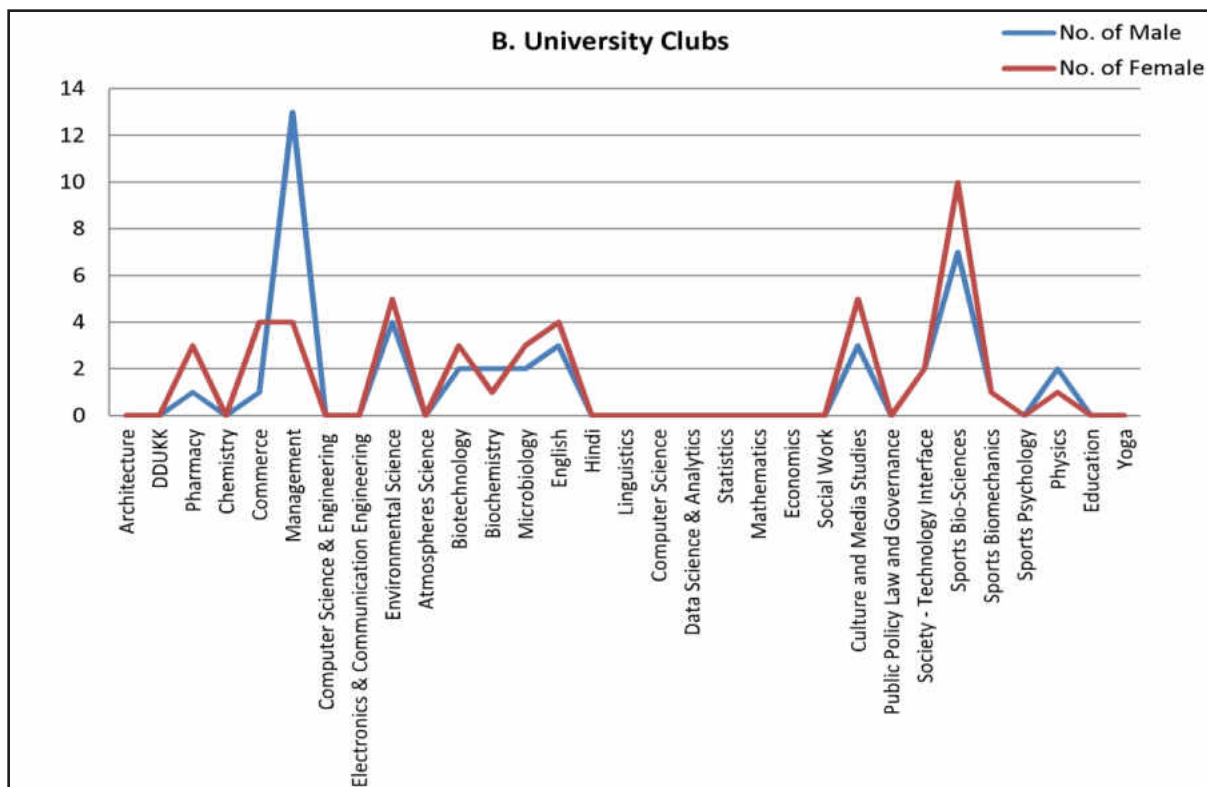

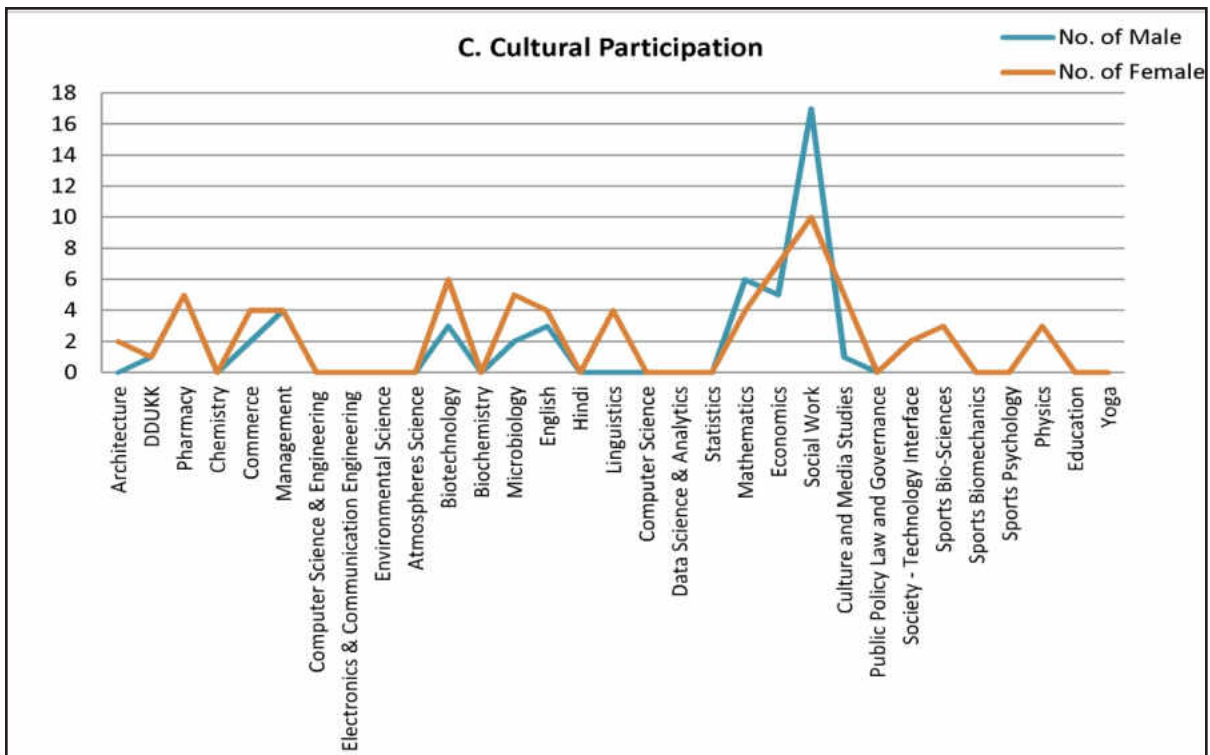

5. Achievement in Curricular & Extra-Curricular Activities

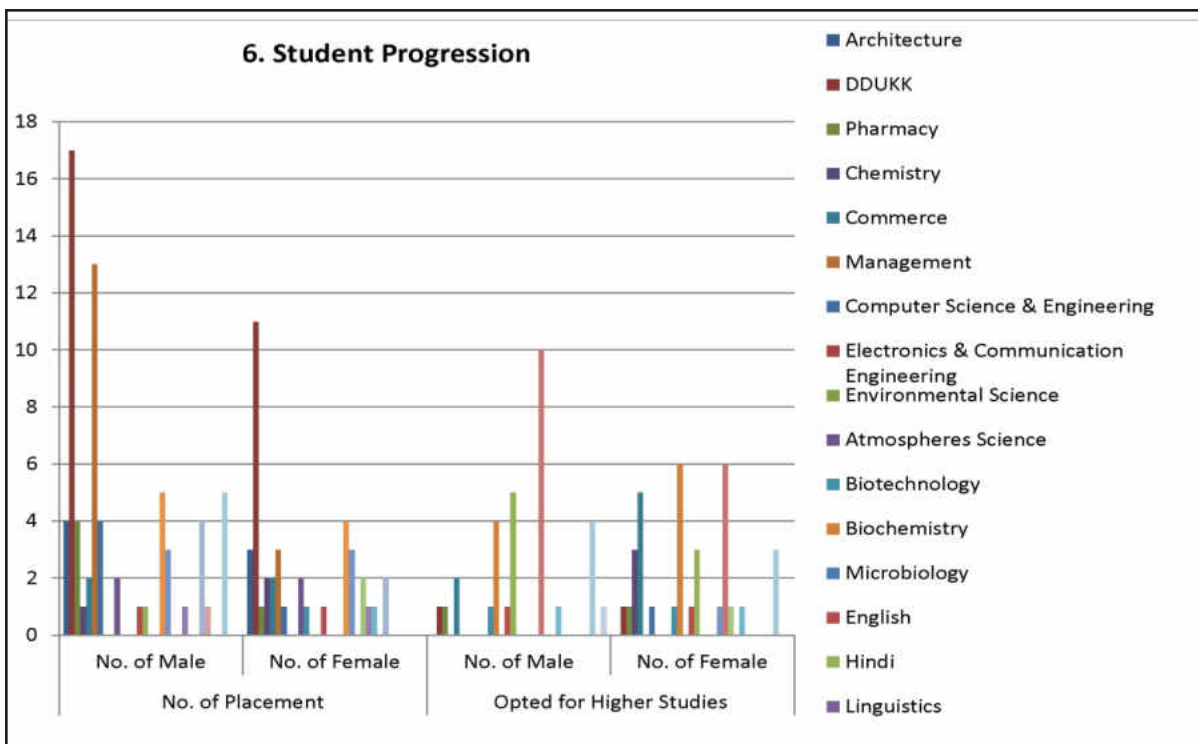

The participation of girl students in various sports activities dipped in 2019-20.

The students of every department were active in different clubs of the University.

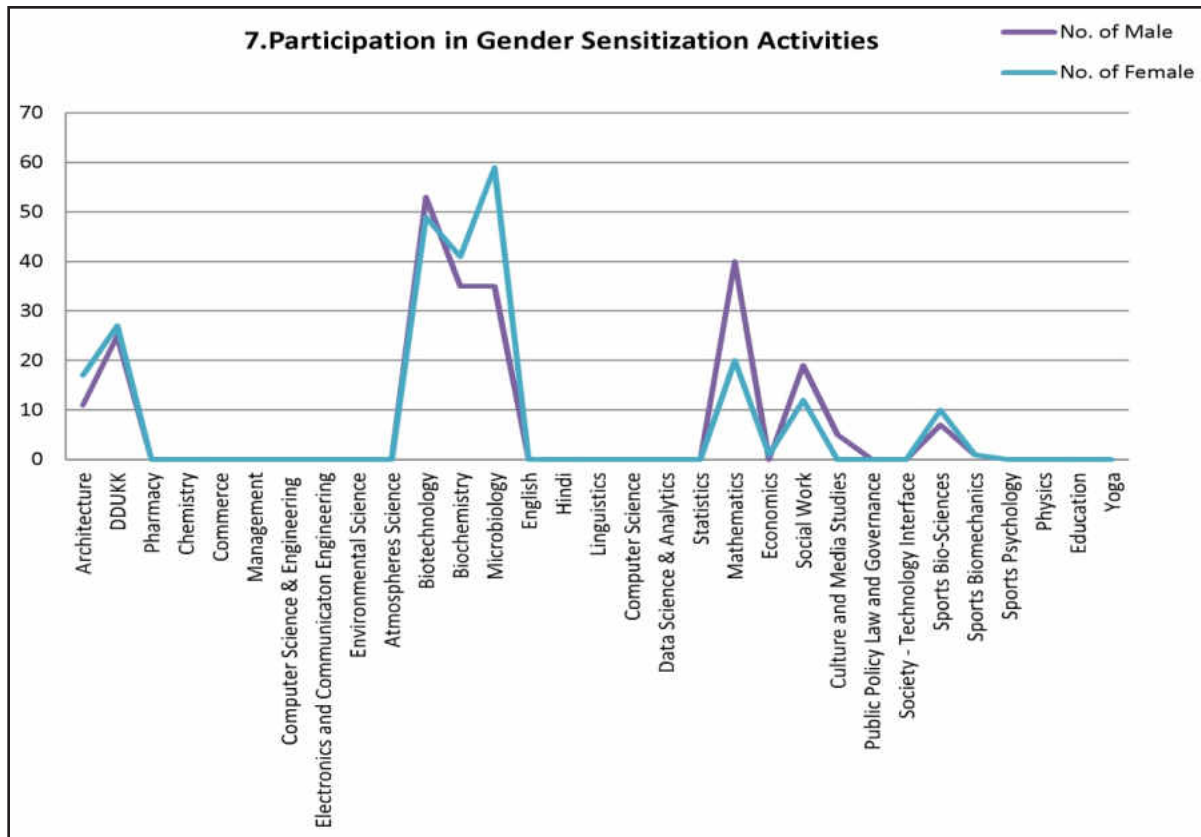

Both male and female students participated actively in the Cultural activities conducted within and outside the University.
